**Attachments:** ATT00001.txt

Should we show only the water sample locations that have results or show all locations? TPC-06 and TPC-07 don't have results yet. We can add text something like "Lab Results for TPC-06 and TPC-07 are pending."

We have configured the Analytical results page – when you click a sample, there is a link in the popup that jumps you to a page that shows the lab results like ITC. (It's not live yet)
